

Footpaths Report December 2025

Five reports received since August

You might just be able to see a waymarker lurking in the undergrowth. It has now been reinstated

Extract from OS 25k Series Map showing the application route from A to B

This is Allextion Green Road and below a 1:25000 map from 1948 showing it.

It has been shown on maps as a road since 1806 and even before that on a tithe map

It is subject to an application in 2021 to confirm it as a Byway Open to All Traffic.

4X4's use the route and churn up the fields but there is no redress as the application is well made and remains on file unresolved.

Tony reported the unsatisfactory state of the path in September
